The anticomunist meeting it has organized does not serve our workers fighting to save their bread from the hands of the exploiters and colonialists. It serves only the purpose of their enemies: Of the American billionaires in Washington who exploit the American workers and our own workers.

With this stand Demirsoy and the federation have again proven that they are under the orders of local and foreign companies. It is necessary for our workers to read this fact carefully and ponder over whose interests will be served by this meeting. The stand toward this meeting by the workers in the Turkish labor federation, whether they will or will not fall in traps, will be a test of the measure of their wisdom. We believe our workers will show this wisdom and will protest the meeting.
